Patented Joint Support Soft Chews

Unleash the Power of Blue Green Algae

ActivPhy JOINT

Why is ActivPhy different? The Power of Blue Green Algae Extract

Our dogs are more than our pets; they are a part of our family and our best friends. We want our best friends to feel and act their best in all stages of their life. That's why we developed ActivPhy!

In addition to glucosamine and MSM, our product uses a patented method of treatment with blue green algae extract that provides antioxidants and supports the body's normal anti-inflammatory response due to normal daily exercise.

ActivPhy's formulation supports bone, muscle and cartilage health. Start your dog as young as one year of age to support healthy joints and flexibility!

*If your dog doesn't like the taste, simply return your unused ActivPhy product and packaging along with a receipt to your original place of purchase for your money back. Excludes any shipping and handling charges.
